Location : Amalapuram, Andhra Pradesh, India

PROFESSIONAL SUMMARY

Software Engineer graduate with strong foundations in Java, Python, SQL, Data Structures, and Full-Stack Web Development. Experienced in building AI-powered applications using React.js, Node.js, Express.js, MongoDB, and REST APIs. Hands-on experience with OpenAI integration, authentication systems, database management, and API testing. Passionate about developing scalable software solutions and solving real-world problems.

EDUCATION

B.Tech, Computer Science and Engineering | Minor: ECE
Srinivasa Institute of Engineering and Technology | **CGPA:** 8.92/10 | **Graduated:** 2026

TECHNICAL SKILLS

- Programming Languages: Python, Java, C, C++
- Web Technologies: HTML, CSS, JavaScript, React.js, Tailwind CSS
- Backend Development: Node.js, Express.js, REST APIs, Spring Boot, Microservices Fundamentals
- Tools & Platforms: Git, GitHub, VS Code, Android Studio, Linux, Postman
- Databases: MySQL, MongoDB, PostgreSQL
- Security & Authentication: JWT Authentication, OAuth 2.0 Fundamentals, Secure Coding Principles
- Core Competencies: Problem Solving, Data Structures & Algorithms, Software Development Lifecycle (SDLC), Agile Methodologies, Software Testing Fundamentals, API Testing (Postman),

CERTIFICATIONS & TRAINING

- Data Science Using Python – SWAYAM
- Java Programming Fundamentals – edX
- AI & Sustainability – IBM SkillsBuild
- Artificial Intelligence – ICT Academy

INTERNSHIPS & EXPERIENCE

- Blackbucks Education Pvt. Ltd. – AI & ML Intern (Dec 2025 – Apr 2026)
- Completed 16-week industry-oriented internship in Artificial Intelligence & Machine Learning
 - Applied Machine Learning concepts through project-based assignments and practical case studies
 - Worked with data preprocessing, model evaluation, and AI workflow fundamentals.
 - Strengthened problem-solving and analytical skills through industry-oriented training.
- Google Android Developer Virtual Internship – EduSkills (Google for Developers)
- Developed Android applications using Java.
 - Gained practical exposure to mobile app development.
- Amazon Data Engineering Virtual Internship – EduSkills (AWS Academy)
- Learned fundamentals of data engineering and AWS services.
 - Hands-on experience with ETL processes and data storage solutions.

PROJECTS

- IPL Match Data Analysis – Team Performance & Winning Patterns
- Analyzed historical IPL match datasets containing team and player statistics.
 - Performed data cleaning, transformation, and exploratory analysis using Python and SQL.
 - Identified winning patterns, team performance trends, and player contribution metrics.
 - Developed visual dashboards to communicate insights effectively
- CareerForge AI – AI-Powered Career Copilot | React.js, Node.js, Express.js, MongoDB Atlas, OpenAI API
- Developed a full-stack AI-powered career platform for resume analysis, ATS scoring, skill-gap assessment, interview preparation, and job tracking.
 - Built responsive user interfaces using React.js and Tailwind CSS, providing a seamless and interactive user experience.
 - Integrated OpenAI APIs to generate personalized career recommendations, resume feedback, interview questions, and learning roadmaps.
 - Designed RESTful APIs with Node.js and Express.js, implementing JWT authentication, profile management, and secure data handling.
 - Developed resume parsing, skill extraction, and job-match analysis features to compare resumes with job descriptions and identify missing skills.
 - Tested and validated backend APIs using Postman and managed user data with MongoDB Atlas.

ADDITIONAL INFORMATION

Languages: English (Fluent), Telugu (Native) | Strengths: Problem Solving, Collaboration, Communication
